

IN THE PINK

Splashes of candy pink, playful styling and sustainable touches bring the party vibe to Brickhouse Vineyard

photography **Charlie Flounders**
concept & planning **Evermore Event Studio**

Nestled amongst an idyllic glade of woodland and pasture in South Devon, Brickhouse Vineyard presents couples with a dreamily idyllic W-day backdrop, from the 18th century thatched Round House to the sweeping vineyard and renovated threshing barn and terrace.

Stripped-back interiors and wild surrounds provide a beautiful canvas for couples to design a bespoke celebration full of individual character, as is illustrated with this styled shoot: a collaboration between photographer Charlie Flounders and stylist Becca Parsons from Evermore Events Studio.

“Our concept was to show couples that it is possible to incorporate sustainable practices into their wedding without compromising on style,” explains Charlie. “Hitting on the trend of pinks and bright colours, we opted for a palette of hot and blush pink, lilac and dark teal with disco balls thrown in too,” she elaborates. “The results are a super fun, bright and colourful style merged with the beautiful setting of Brickhouse Vineyard – and using an incredible team of Devon suppliers.”

Eye-catching details create a high impact scene and range from colourful glassware, stationery and plant pots to elegant tapered candles, colour-pop table settings and succulents in varying sizes and shades of green. The floristry – a blend of neutral and pink shades – ties the look together and complements the show-stopping cake: a too-good-to-eat centrepiece that adds another element of texture to the multi-layered look.

Not to be outdone by the setting, the bride showcases a spectacular trio of on-trend looks including a romantic pink tulle dress with a tiered skirt, a glitzy gown adorned with a gold leaf crown and a chic white suit completed with a sleek side ponytail and pearl-encrusted heels for the most en vogue evening wear.
